***LAGUNA™ Service Rate***

Central PC Service Fee	\$0.00
------------------------	--------

\*First 10 years of cellular service is included for all new purchased cellular modems (excluding cellular upgrade kits). Service begins the moment a DX3 controller connects to Cloud Connect.

DX3 Cellular Service Plan Rates are per unit in service and are subject to terms and conditions specified in this document. Service plan rates and charges are for cellular service to Laguna and the ProMax Connect App only. There is no activation or termination fee. There is no monthly service fee associated with the central PC. Controllers cannot be suspended to preserve allowance of service. Each controller SubMaster and Satellite pool is allotted 20MB data usage per month. If controllers exceed the 20MB monthly data pool limit, a \$0.50 charge will be added for each MB that is over. All DX3 Cellular Service Plan Rates are billed for the year, in advance, in the beginning of each calendar year. Overage fees for the current calendar year will be charged the following year, in the next annual service bill. Payment for service is due within 60 days after the invoice is sent. Partial payment will not be accepted. If payment is not received within 60 days, cellular service will be suspended/terminated and user will be subject to a late fee. Rain Master reserves the right to make changes on the Service Plan Rates at any time without prior notice.
