

Controllers designed for installations where performance, reliability, and versatility are mandatory ~ Rain Master... The last controller you'll ever own.

"Established in 1981, for the past 25 years Rain Master has been on the leading edge of manufacturing innovative irrigation controls and control systems.

Credited with introducing numerous technological "firsts", the last being iCentral™, Rain Master is the well established brand name of choice for state of the art water management solutions, thru the use of electronics, software, and communication technologies.

The company's product engineering and design continues to stay focused on leading in the development of innovative easy to use irrigation controllers, handheld remote controls, and central control systems; central control options include the industries first web based central control as well as a stand alone computerized system. Rain Master consistently offers new technologies that exceed irrigation industry quality and performance standards for ET based watering.

There are no better irrigation controllers on the market today than Rain Master."

"Visionary solutions to water management thru technology"

FEATURES	Sentar II	Eagle	Evolution DX2
ET-based Water Savings	No	Yes	Yes*
Central Control	No	Yes	Yes
Weather Station Interface	No	Yes	Yes*
Maximum Stations	36	36	48
Number of Programs	4	4	12
Program per station	No	No	Yes
Number of Start Times	5	5	8
Maximum Station Runtime	9:59 hh:mm	9:59 hh:mm	24 Hours
Quick Station Programming	Yes	Yes	Yes
Inter-Station Delay Time	1-255 Sec.	1-255 Sec.	1-255 Sec
Water Budget (%)	0-300%	0-300%	0-999%
Cycle and Soak Programming	Yes	Yes	Yes
Skip Day Programming Option	Yes	Yes	Yes
Programmable Rain Delay	1-7 Days	1-7 Days	1-7 Days
Programmable Security Levels	1	1	2
Programmable Overlap Protection	Yes	Yes	Yes
Rain/Freeze Sensor Input	1	1	1
Hour/Minute/Second Programming	No	No	Yes
14 and 31 Day Programming	No	No	Yes
Programmable Water Window	No	No	Yes
Multi-Station Manual Operations	No	No	Yes
Timed Manual Operations	Yes	Yes	Yes
Manual Program Operations	Yes	Yes	Yes
Station Test Function	1-9 Minutes	1-9 Minutes	1 Min - 24 Hrs.
Station Short Identification	Yes	Yes	Yes
Built-in Solenoid Amperage Meter	No	No	Yes
Station Current Monitoring/Alert	No	No	Yes
Audible Malfunction Alarm	Yes	Yes	Yes*
Station High Flow Monitoring/Alert	Yes	Yes	Yes
Station Low Flow Monitoring/Alert	No	No	Yes
Auxiliary Injector Station	No	No	Yes
Main Line Flow Monitoring/Alert	Yes	Yes	Yes
Unscheduled Flow Monitoring/Alert	Yes	Yes	Yes
Manual Rain Shut-off	Yes	Yes	Yes
Rain Sensor by Program	Yes	Yes	Yes
Omit irrigation by Date	No	No	Yes
Pump Control by Program	Yes	Yes	Yes
Intelligent POC Control(Flow Max)	No	No	Yes
Monthly Over-Budget Protection	No	No	Yes
Review Function	Yes	Yes	Yes
Master Valve Assignment	By Program	By Program	By Program
Multiple MV Terminals	No	No	Yes
Optional HD Lightning Protection	Yes	Yes	Yes
Non-Volatile Memory	Yes	Yes	Yes
Diagnostics LEDs	No	No	Yes
English/Spanish	No	No	Yes
Battery Requirements	None	None	None
Built-in Remote Interface	Yes	Yes	Yes
Flow Sensor Inputs	1	1	2
N.O. or N.C. Master Valve	Yes	Yes	Yes
Transformer Maximum Load	1.5 AMPS	1.5 AMPS	2.0 AMPS

* Not as stand alone control – must be connected to central
